

What is the Conference about?

This year our conference will focus on several key aspects of conservation in Central Scotland, glancing at past work and exploring the many challenges facing us now in attempting to address the impact of climate change on the natural and built heritage. We will also consider some urban conservation projects, including the future for town and city centres in the face of our changing shopping habits.

Where is the conference held?

This year the conference will be held at Stirling University once more, as well as online. We do hope that you will choose to attend the conference and look forward to seeing you all again.

Forth Naturalist & Historian

47th Annual Conference

Conservation in Central Scotland: Past, Present and Future at Stirling University

Saturday 12th November 2022

Historic view of Falkirk from the south, 1824 (detail). Carron Works and the Tattie Kirk are visible and the skyline is dominated by the Parish Church and the Town Steeple. (Falkirk Local History Society) from Falkirk Town Centre Conservation Area Appraisal
